

**U4L2A2** | Oil stakeholders organizer

**overview**

In this activity you will work collaboratively in a small group to complete the oil stakeholders organizer. Your group will identify the potential impacts of oil depletion on the major stakeholders, and identify each stakeholder as a winner or loser. You will begin to contemplate the realities of life after oil.

**learning goal**

- To understand the complicated and conflicting positions of major stakeholders on the issue of oil scarcity.

**success criteria**

- Thoroughly and thoughtfully complete organizer and informally share findings with the class—each group must justify their winner/loser designation.

**Inquiry Question**

- What are the potential impacts of oil depletion on major stakeholders?

**task**

When change occurs there are winners and losers. How will each of these stakeholders be affected by the end of oil? Form a small group of three–four students and work collaboratively identify potential impacts of oil depletion on each stakeholder. Record your answers in the table that follows. Be prepared to share and justify your opinion.
